

Glen Grunwald knows the anguish of being your brother's keeper, when your brother is homeless and has schizophrenia.

The phone calls come in the middle of the night. From jail. From hospitals. They bring heart-wrenching tales of Glen Grunwald's brother Gary's life on the streets with schizophrenia. Glen tries to help, but it's always only a temporary solution. The former G.M. of the Toronto Raptors and the current CEO of the Toronto Board of Trade champions the need for better facilities and programs. CAMH is helping with vital early detection, intervention and treatment that helps young people return to everyday life. Because schizophrenia shouldn't equal homeless and hopeless. Glen believes it – so do we.

We're transforming lives.
